

Hello,

Greetings from Google My Business Support Team.

Thank you for your question about verifying your business **Select Flowers Online Gympie** to display on Google Search and Maps.

In order for us to proceed further, your listing needs to be verified via "Video Verification". Video Verification can be completed via a live video call with one of our specialists from your workplace. This will include showing our specialist around your work space, your business logo, etc...

- If you meet customers on your premises we'll want to see your public space as well.
- If you service your customers at their location, you can show us the tools and instruments that you use to cater to your customers.
- If you use a vehicle to get to your customers, you can show our specialist the license plate of your registered motor vehicle (sorry, no public transit accepted at this time) and your business logo on the vehicle.

What's next? Reply to this email if you would like to verify your business through video, and the best suitable time between **12 PM to 08:00 PM AEST** and allow for up to one business day for us to confirm the appointment to get on a video call with you. If you're not available in the next 5 days, message us within one week of your next available time to set up an appointment. You'll need to be at your business premises, and you'll need to have internet access capable of video chat.
